Green Compass offers a compensation system that's uniquely designed to provide the maximum income for every level of participation. You can read about it at Organicblondie.greencompassglobal.com. Many distributors are delighted to earn a few hundred dollars extra every month, for a few hours of activity in their spare time. Others enjoy the opportunity to build a substantial income, in time replacing their current source. The sky is the limit then it comes to selling any CBD products. You make commission on each product sold and commissions are paid weekly. Commissions start at 20% as well as monthly bonuses.

I will also send you the Green Compass company story, a video on how CBD works in the body and a few graphics that I think will be helpful for you to learn more about Green Compass and CBD.
